Denise, would you please make sure the Board sees this e-mail? I probably won't stay for the entire Board meeting, but I did wish to register my support for the Lyft Lines contract.

\*\*\*\*\*

In order to reduce traffic congestion, Lyft and other ride-share services appear to be effective in many areas nationwide. TAM staff have worked hard to study this new concept, and the results look promising. In addition, it's a first step to tease out what will work most effectively for ride-share in our County in the future.

This is a "must" project.

I urge a unanimous vote in favor.

Cindy Winter
